

ODP 91-1333  
3 October 1981

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson  
Director of Data Processing

SUBJECT: ODP Report for Week Ending 7 October 1981

25X1

Support to National Intelligence Emergency Planning Staff  
(NIEPS)

[redacted] attended a meeting of the National Intelligence Committee for Emergency Planning (NICEP) on 2 October. The meeting, chaired by Admiral Inman, heard reports by the various NICEP subcommittees. [redacted] gave the data handling portion of the Communications and Data Handling Subcommittee report.

25X1

Support to DDA

Airline-Ticketing. A meeting was held on 30 September at the United Airlines Reservation Center in McLean. Attending were [redacted] John DiMarzio and Bud Bowen of United Airlines. A demonstration of the Apollo Ticketing System was given which made it apparent that the system did not perform all the work for the user, but that it did greatly reduce the workload for a knowledgeable user and make it much easier to retrieve information about flights. Following the demonstration, discussions with computer operations personnel were held to answer questions on downtime, security, and terminal identification.

25X1

Support to Office of Personnel

CAPER/OP (Case Processing System) A three ton air-conditioning system and humidifier were installed in room 533 Ames to alleviate the air handling problems in that room. Also, a power upgrade was completed to permit future installation of a power disconnect switch.

25X1

25X1

Support to Office of Development & Engineering

In response to a special request for support to a Meritorious Unit Citation for DDS&T Program 5, ODP provided programming and SCRIPT MACRO SUPPORT for the preparation of 461 invitations to

DBS&T Program B participants. The Meritorious Unit Citation Award will be presented by Admiral Inman on 14 October in the Auditorium. We extracted and converted personality data from COME VI data files and merged the extracted names into a standard memorandum. We met an ODS&T-desired deadline of two days. [redacted]

25X1

25X1 Tape Disposal [redacted]

The Building Services Branch, Office of Logistics (BSB/OL), has

25X1

25X1 SAFE [redacted]

On 5 October, the contractor responsible for developing the SAFE cryptographic key generator (KG-48) began the teaching of a five week course on the maintenance of this device. Attending the course are three Office of Communications technicians. A representative of the CSPO visited the contractor's facility for the initial session of the course. [redacted]
